DETAILED ACTION

Election/Restrictions

Applicant's election of group II/species B in the reply filed on 7/11/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 1-20 and 31-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species/group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/11/05.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21, 25, and 30 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hozumi.

Hozumi discloses a vehicle/aircraft having a lavatory unit with a cabinet assembly which includes a housing having a first wall with opening and a second wall having access port 44, module 53. The module has one compartment that is alignable with the access port.

Re claim 30, means for locking a module in place is well known in this day and age. The Examiner takes official notice that this is well known in the art.

Allowable Subject Matter

Claims 22, 23, 26, 27, and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Vernon, Shibata, Mogensen, Ooi et al, Farnsworth, and Ebrahimi disclose module means on vehicles.
